

GripplE Barbed

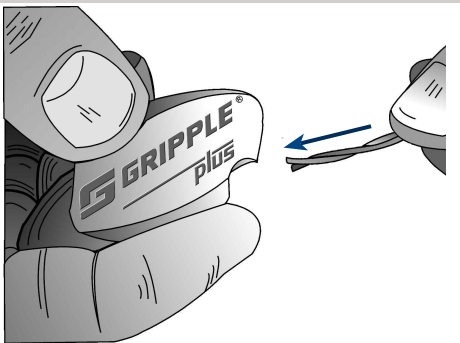

The GripplE Barbed is designed for use with larger diameter barbed wire.

ADVANTAGES

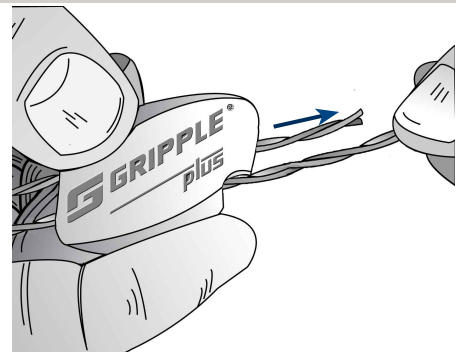

- Join and tension the barbed wire in seconds.
- Suitable for 2.00mm and 2.50mm barbed wire.
- One-way movement allows for re-tensioning.
- Use on mild steel or high tensile wire.
- Professional, safe and secure finish.

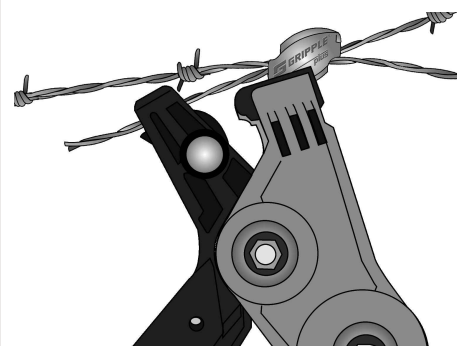

INSTALLATION

Insert 1st wire

Insert 2nd wire

Tension

- Insert the first wire, then the second to make a wire join.
- Tension with the GripplE Tensioning Tool.

SPECIFICATION

Product	Wire Diameter (mm)	Wire Gauge	Load kg
Barbed Wire GripplE	2 x 2.0 barbed wire	14 Barb	150kg / 330lb
Barbed Wire GripplE	2 x 2.5 mild steel barbed wire	12 1/2 Barb	150kg / 330lb

Available in bags, bulk, Starter Packs and Tools Deals (with special offers on Starter Packs and Tool Deals).

TIPS

- Always leave a wire tail of at least 75mm / 3" to allow for re-tensioning.
- Secure tail wires with the GripplE Twister.
